Subject: Approval of Amended Notice of Intention to Commence Small Mining Operations, SK Materials, Ekins 2 Mine, S/049/0088, Utah County, Utah

Dear Mr. Clement:

The Division of Oil, Gas and Mining approves the amended Notice of Intention to Commence Small Mining Operations with an updated site map showing that the one-acre permit boundary has been moved to the east. The original permit boundary located directly to the west has been regraded and seeded and is currently in the revegetation liability period.

The reclamation cost estimate for this one-acre area has been calculated on a site-specific basis and determined to be \$3,135.00. An additional \$1,000.00 surety is being held for the vegetation liability on the previous one acre permit boundary. We are in receipt of the \$845.00 in additional funds provided to amend the existing cash bond bringing the total surety to \$4,145.00.

Thank you for your cooperation and for keeping your mine plan current. The stamped approved map is included for your records. Please contact April Abate at 801-538-5214 if you have questions regarding this approval.

Sincerely,

Paul B. Baker  
Minerals Program Manager
